

Time	HPI	
Years	Min HPI	Max HPI
1991-1995	95	138
1996-2000	95	173
2001-2005	128	278
2006-2010	158	294
2011-2015	153	283
2016-2020	182	441
2021-2023*	255	596

Table 1. How does HPI compare over the years in terms of maximum and minimum? HPI remain untouched, although years were grouped each 5 years and rounded up as whole numbers. Minimum and maximum HPI were selected across every 5 years and then showcased in the table. HPI continued to increase until within year of 2011-2015, it decreased slightly. Then, it started increasing again in the next interval (2016-2023). Overall trend show the increasing HPI ever since then except for 2011-2015 interval.

Note: Asterick(*) by 2021-2023 indicates an incomplete interval. 2024 have incomplete data where it lacks full 12 months, thus it was excluded from the table.
